

All About Me!

I'm Rebecca Fernandes, PTA chairperson. I have 3 children at Whitkirk Primary and I'm passionate about making our school a fun and inclusive place for all our children.

I joined the PTA originally to get more involved in school and meet other parents and it's turned in to so much more, I have made some amazing friends and we certainly have lots of fun preparing and creating our events.

I still remember the school fair from my primary school days and the excitement of having some pocket money to spend - my aim is to give our children the same fond memories of the events we put on as well as raising money to benefit them and their education.

I am also the founding member of the neurodiversity support network for parents at Whitkirk. The group is a way for parents and carers of children with conditions such as ADHD, ASD, dyslexia etc to talk to one another online and in person. The group is open to all and there is no diagnosis necessary.

Outside of school I am a full-time personal assistant at British Gas, so I often need to use my organisational skills to keep on top of everything we have going on!
